❖ ملف 2D

صفحه index ←

```php
<?php
include 'core/init.php';

include 'include/overall/header.php';?>

        <h1> This is home page </h1>
         Just a template

<?php include 'include/overall/footer.php';?>
```

صفحه logout ←

```php
<?php
session_start();
session_destroy();
header('location:index.php');
?>
```

صفحه register ←

```php
<?php include 'include/overall/header.php';?>

        <h1> Registration </h1>
        Plz, Register in our site

<?php include 'include/overall/footer.php';?>
```

صفحه login ←

```php
<?php
include 'core/init.php';

include 'include/overall/header.php';

if (empty($_POST)===false){
 $username=$_POST['username'];
 $password=$_POST['password'];
  //echo $username , $password ;//

 if (empty($username)===true || empty($password)===true) {

    and `password`='$password'");
  return (mysqli_result($query,0)==1)?$user_id:false;

}
?>
```

←ملف database

- **صفحه connect**

```php
<?php

$conn=mysqli_connect("localhost","root","", "na");

?>
```

←صفحه init

```php
<?php
session_start();
require 'core/database/connect.php';
require 'core/function/users.php';
$errors=array();

?>
```

❖ ملف include

←ملف log in داخل الملف

- صفحه log in

```
<div class="widget">
        <h2> log in/ Register </h2>
        </div>

        <div class="inner">
           <form action='login.php' method='post'>
             <ul>
                 <li> username:<br><input type='text' name='username'> </li>
                 <li> password:<br><input type='text' name='password'>  </li>
                 <li>          <br><input type='submit' value='log in'> </li>

             </ul>
           </form>
  </div>
```

←ملف overall داخل الملف

- صفحه header

```
<!DOCTYPE html>
<html>

<?php include 'include/head.php';?>

<body>
<?php include 'include/header.php';?>
    <div id="container">
<?php include 'include/aside.php';?>
```

←ملف overall داخل الملف

- صفحه footer

```
    </div>
<?php include 'include/footer.php';?>

</body>
</html>
```

←الصفح الموجوده داخل ملف include نفسه

←صفحه aside

```
<aside>
    <?php
      if (isset( $_SESSION['User_id'])===true) {
